

In-Home Student Tutoring

Enable isolated women through one-on-one learning to become connected, contributing members of their community.

New Students

Help interview and assess a new student.

\$25

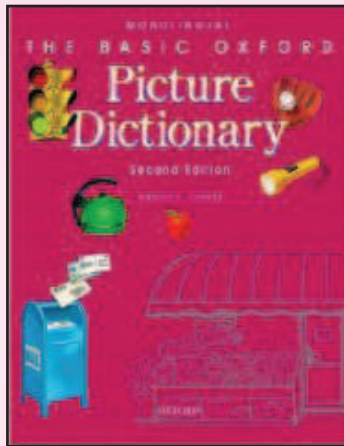

Each new student is assessed for English skills and educational background to determine the specific needs that will help her reach her personal goals. Your gift allows us to interview and assess a new student.

Student / Volunteer Matching

Help connect a student with the volunteer best for her.

\$40

Students are matched with volunteers based on their availability, location, and personalities for the ideal one-on-one learning experience. Your gift facilitates this process.

Books and Materials

Help a woman learn English by providing the books and materials needed.

\$75

The cost of books could prevent women with limited resources from learning English and improving their lives. Your gift allows a woman to start on her educational journey.

Family Impact

Help a woman learn how to read to her children or assist with their homework.

\$50

Can you imagine what it is like to not be able to help your child with basic reading? With your help, a woman can play an active part in her children's education.

Community Involvement

Help a woman become an active part of her community.

\$50

Many immigrant and refugee women are isolated from their new communities due to lack of communication skills. Your gift gives a woman the confidence and ability to be independent in daily tasks such as shopping, banking, and working.

Transportation

Help a volunteer drive to a student's home or take her student on a field trip into the community.

\$25

Some volunteer educators are able to give their time, but also live on limited incomes. Your gift can alleviate the financial strain on a volunteer driving to her student's home twice a week.
